Most Important?

Arising ancient civilizations in Egypt, the Near East, India, and China were impacted by vast river valley systems that sustained growth and prosperity. Most of the great Ancient civilizations arose around river valley communities, coinciding with the late Neolithic period and the emergence of the Agricultural Revolution.

River Valley Communities in Ancient ... - World History

The world's longest river, located in Egypt, the Nile flows 4,132 miles (6,650 kilometres) northward to the Mediterranean Sea (a very unusual direction for a river to take). It was considered the source of life by the ancient Egyptians and has played a vital role in the country's history. The Nile flows from two separate sources: the White Nile from equatorial Africa and the Blue Nile from the Abyssinian highlands.
